Interests & Experiences

Why are you interested in serving on a board or commission?

Improving our communities is a collaborative effort. It isn't enough to simply say I have devoted myself to public service -- I want to be a catalyst for healthy change in our community. Guilford County is a bustling area, both with diverse citizens and entrepreneurial opportunities. But unfortunately, we also have issues we must address, including food deserts, homelessness, and crime. While not just unique to this area, we must bring in homegrown experts from numerous disciplines -- folks who are familiar with this area -- and deploy effective strategies to address these issues. I am an alumnus of UNC Greensboro. My degree is in Political Science (Pre-Law), which blends many fields together to provide me a broad perspective. I have experience in crafting comprehensive policy and in canvassing our communities to gather data. With a sharp analytical mind and a sterling work ethic, I can come together with peers and assess complex problems. To me, these boards and commissions are a vital part of our local government, and I have the skill-set to act as an asset in this very capacity; all I am asking for is the opportunity to do so. Thank you for your time.
