

Williard Plot Grave Relocation Process

Listed below are steps the City of High Point Cemetery, Public Services Division will take to properly disinter/reinter the unknown burial from the Williard Plot in Oakwood Memorial Park. Once a permit is obtained, the division will schedule all other resources to complete the process. Please refer to the attached map for a better understanding of the grave locations. This burial will be moved approximately 30 feet from its original location. The division has arranged Larry Wright of Wrights Funeral Service to be the acting funeral director during this process. Mr. Wright will be onsite during the relocation at no charge. The relocation will be completed during a single day within a three-hour time frame.

Disinter/Reinter Steps:

- The gravedigger will open the new grave (currently marked)
- The gravedigger will then excavate the current unknown grave
- The gravedigger will prepare the vault for disinterment
- Wilbert Vault Company will remove the vault from the current location
- Wilbert Vault Company will transport the vault to the new burial site
- Wilbert Vault Company will lower the vault into the new grave
- The gravedigger will close the grave
- The gravedigger will then cover the original grave site
- Both areas will have seed and straw applied

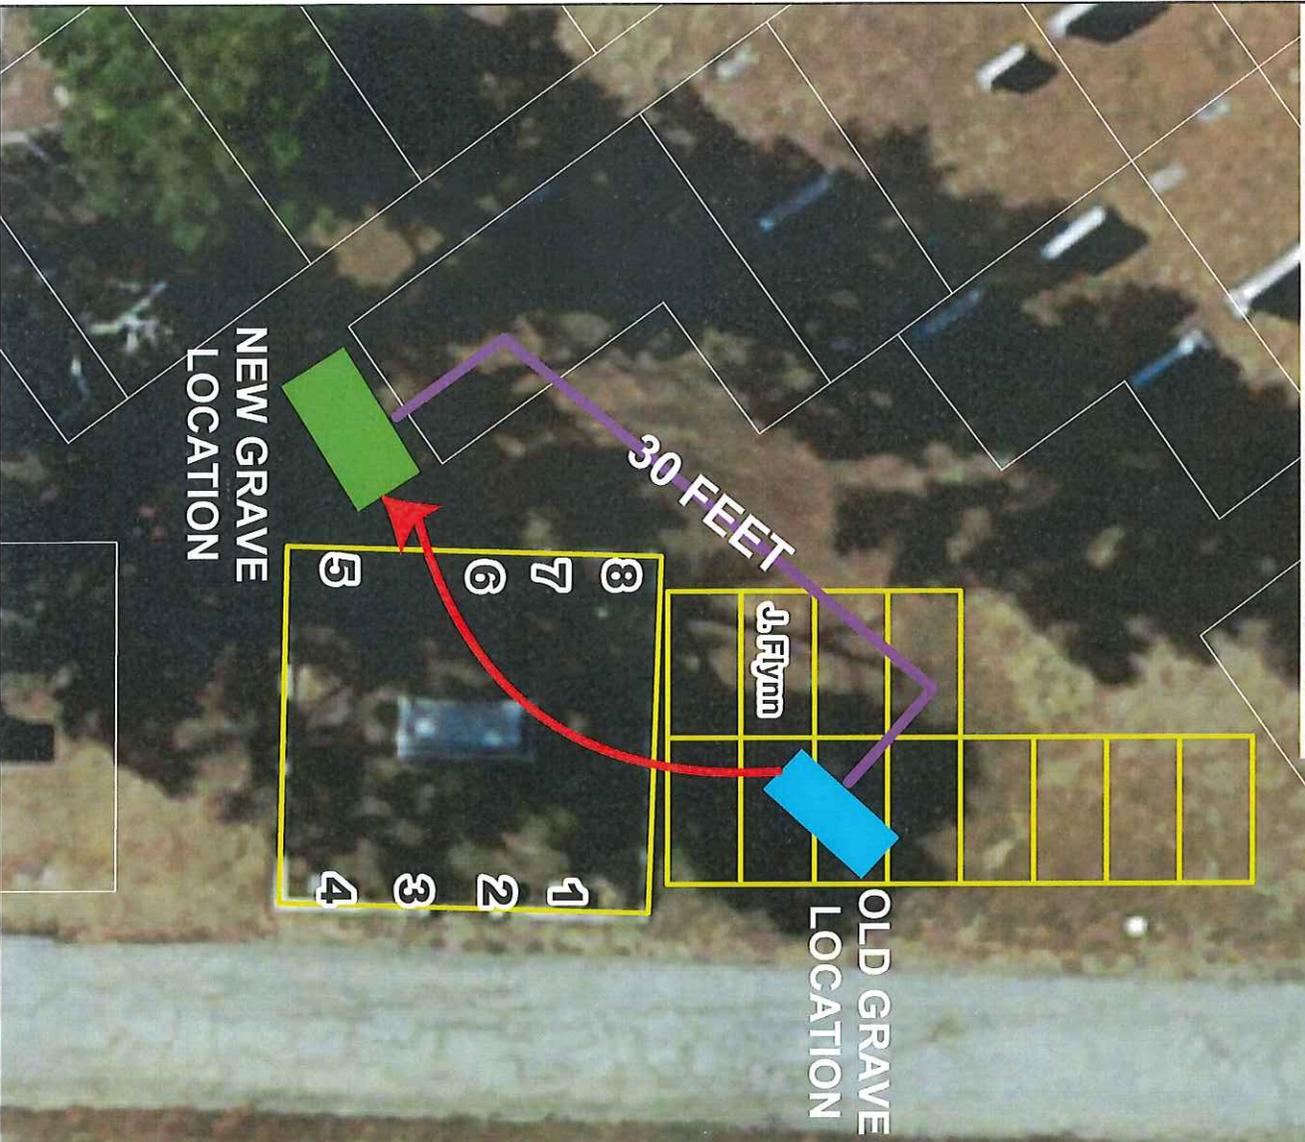

The division will then have a marker placed on the new grave location as “unknown”. All documentation will be entered into the Cemetery Division records at the cemetery office. The documentation will include pictures, measurements and sketches that will assist with identifying the name of the unknown burial in the future if additional or other information is obtained.

Gravedigger Charge \$1400 (\$300 of that is from the day this occurred.)

Vault Service Charge \$550
