VII. NEW BUSINESS

- A. Approve UNCG contract, in substantial form, to provide case management staff to the Specialty Courts. Contract amount is \$410,706.00. The contract period will begin on July 1, 2015 and end June 30, 2016, with the option to renew for 1 year. NO ADDITIONAL COUNTY FUNDS.**

Angela Liverman, Child Support Enforcement Director, introduced the contract.

Chairman Henning questioned the need to approve the contract as a whole, or the option to approve for an abbreviated period of time until final decisions were made regarding the program.

Superior Court Judge Susan Burch clarified that UNCG administers the contract; however, that this is a County program with no State funds.

Commission Cashion asked if there was any fee paid to UNCG for administration of the program.

Burch noted there is no administration fee. She stated that the Therapy courts have been in place since 2001. The State Administrative Offices of the Courts ended their administration of the program, and the County chose UNCG to administer the program to maintain continuity of services.

Vice Chairman Phillips reviewed the agenda item, and asked for clarity on the daily operations of the program.

Liverman reviewed the referral process, eligibility requirements, along with the monitoring and screening pieces of the program.

Burch expanded on the functionality of the Therapy Courts program. Burch noted that although there are three types of therapy, six programs are offered between High Point and Greensboro. She stated that the numbers and the models used are based on national best practices.

Phillips questioned if seven case managers and 2 coordinators were required to monitor 210 participants.

Burch stated that it would not allow the case managers to manage the volume of cases and coordinate community resources for each client. Burch noted that she has sufficient interest to increase the capacity, but does not have the staffing resources to cover the added volume. Burch stated that it would not be possible to consolidate the programs.

Phillips questioned if one coordinator could manage the program.

Burch noted this would violate national best practices. She stated all staff are cross-trained; however, she cautioned that increasing capacity would decrease the quality of services and that it is not possible to consolidate the Greensboro and High Point programs.

Commissioner Coleman questioned the options to change the terms of the contract.

Chairman Henning spoke to the options for partial approval until a full review of the contract was completed.

Marty Lawing, County Manager, noted that this is an opportunity for the County to review all contracts related to Therapy Courts, Jail Population Reduction and Pre-trial services, in conjunction with expansion of the Electronic Monitoring program.

Henning recommended a work session to review all programs thoroughly and holistically.

Coleman expressed concerns with the timing of the review of the contract.

Lawing agreed with her concerns and noted that the review of these programs coincided with the transition of a new Director into the Child Support department, and her evaluation of all related contracts.

Coleman stated that the Board has not been provided with information regarding the review of these contracts and programs and noted that the timing gives staff insufficient time to prepare for changes in service.

Henning echoed Coleman's concerns and discussed the decision to review Therapy Court contracts.

Commissioner Trapp spoke to the benefits of the Mental Health and Drug Therapy Courts. He noted the national trend to begin programs similar to those existing in Guilford County. He emphasized that Guilford County is a leader in this area.

Commissioner Cashion spoke in support of the specialty courts and discussed the lives saved, as well as, the funding saved as a result of assisting one person. She expressed her appreciation to the team of Superior Court judges who participate in Therapy Courts.

Phillips spoke in support of the program however, noted the need to perform due diligence to create efficiencies that will impact more lives in a positive manner. He asked the County Manager if County staff within the Court Services department could administer the program. Phillips requested a work session to review all contracts and programs related to jail population reduction.

Commissioner Branson spoke to the benefits of the program and noted the data received. He expressed concerns with the county funding the program in its entirety, and questioned if the Board could hear more information on funding, participation and staffing for the Therapy Courts.

Burch welcomed the opportunity to review the programs with the Board. She stated that the Guilford County Court programs are the best run programs in the state. Burch briefly reviewed the outcome statistics with the Board. She noted that Court Services staff currently do not have the training or certifications required to effectively run the program.

Henning encouraged the Board to hold a work discussion with the judges and staff to conduct a more detailed discussion on the topic.

Trapp recommended the Board visit a specialty court.

Cashion spoke to the efforts of the courts and her comfort with approving the contract as presented.

Commissioner Perdue spoke to the benefits of the program but encouraged ongoing program assessment and evaluation.

Commissioner Foster thanked the judges and staff for their efforts in the program and noted the difference she has seen with juveniles who have participated in the specialty court programs.

The Board discussed their interest in a work session.

The Board, by General consensus, scheduled a work session for August 6th, 2015 at 3:00PM.

Judge Burch reiterated the invitation to attend Specialty Court sessions that are being held in High Point.

County Attorney Mark Payne noted that staff can forward the court schedules to the Board members.

Motion was made by Commissioner Kay Cashion, and seconded by Commissioner Ray Trapp to approve UNCG contract, in substantial form, to provide case management staff to the Specialty Courts.

By General Consensus, the Board cancelled the August 20th, 2015 regular meeting.

VIII. HEALTH AND HUMAN SERVICES

A. Receive Health and Human Services update for the months of June/July. (Joe Raymond)

Joe Raymond, DHHS Director, noted that the Board's DHHS Advisory subcommittee is prepared with a draft of several recommendations surrounding consolidation ready for review during the August 22nd meeting. He discussed the role of the Human Services Sub-Committee and that several other counties in the Option 3 Model have had similar discussions on the role of the advisory committee.

Commissioner Conrad noted that any budgetary issues would remain the responsibility of the Board.

Commissioner Branson noted that direction of the department is moving forward, despite public perception.

Raymond stated that the Option 3 model is ready and DHHS staff are willing to perform as designed.

Branson questioned why advisory committee meetings have been cancelled.

Raymond stated that he did not recommend cancellation of the meetings, and deferred to Commissioner Trapp to explain the reasons for cancelling.

Conrad responded that the structure of the DHHS Advisory Committee will be very similar to those of the Public Health and Social Services Boards prior to consolidation.

Commissioner Trapp explained that the meetings were canceled as there was no clarity on the role or structure of the advisory committee. As a result, the Board created a sub-committee to define those roles.

DHHS-Public Health Director, Merle Green, reviewed current updates and noted the need to continuously assess staff resources for each of the health divisions. She noted that they did not

expand any new programs this fiscal year, but will potentially expand certain services as a result of partnerships with local hospitals.

DHHS-Social Services Director, Heather Skeens, provided an update on Medicaid recertifications and discussed the movement towards same-day processing for expedited Food and Nutrition Services (FNS) walk-in applicants. She informed the board that the DSS Program Integrity unit had collected over \$450,000 claims during FY2014-2015, the highest amount since 2010.

Chairman Henning expressed his interest in quarterly meetings as the department continued its transition into consolidation.

Trapp spoke in favor of the quarterly meetings.

Raymond stated that the staff would be prepared to provide an overview of the divisions; however it would require a two to three hour time commitment, due to the volume of programs within the department.

Vice Chairman Phillips questioned if these meetings should occur more frequently than quarterly.

Lawing reminded the Board of the DHHS requirement to report on its strategic plan, goals and benchmarks by September 2015.

By general consensus, the Board scheduled a work session to discuss DHHS goals and the role of the advisory committee on September 10th, 2015 from 2:00PM-5:00PM.

Phillips thanked Mr. Raymond, Ms. Skeens and Ms. Green on their efforts in reducing the backlog of Medicaid and FNS applications.
