Which Boards would you like to apply for?

Guilford County Animal Services Board: Reapplying

County Commissioner District *

District 3

Interests & Experiences

Why are you interested in serving on a board or commission?

As a resident and dog owner for more than 40 years, I have held various professional and community leadership roles. In retirement, I have committed to the satisfying work of active visiting and leading therapy animal work through Pet Partners and NC Pet Partners (NCPP). My objectives have been to increase the impact of therapy animals visits across our geography, across organizations and evaluating more animals (dogs, cat, rabbits) for mutually beneficial visiting. Our NCPP has grown from a handful of people to 75-100 teams. This may be a new dimension to the GCASB.

Question applies to multiple boards

Briefly list your professional, educational and volunteer experiences that are most relevant to the mission and duties of this board:

Please reference my attached resume with a summary of my Volunteer Commitments. My relevant career skills include strong financial experience, marketing leadership and ability to work productively in group interactions.

Please list your experiences with animal services, animal control, and animal rescues; and discuss your ideas for improving the well-being of pets and the animal population, in general, within Guilford County.

I advocate for the health, safety and well-being of animals. In therapy animal work, my 10 years of experience as a Licensed Evaluator has been to evaluate teams (handler and animal) for registration that considers aptitude and skills to serve across public and private entities. Pet Partners provides rigorous standards for affiliative nature of the animal and handler, skills and a trusted bond between animal and handler. Volunteer work supports my beliefs that dogs with disabilities and special needs, regardless of breed or physical characteristics, can inspire visits by diverse citizens and fundamentally be welcome pets. My contribution to the GCASB will be grounded in these beliefs. My effort will be to understand the issues and points of view; analyze the well-being of the animals, options and costs; and consider marketing alternatives that align animals and pet owners.
