WHAT I HAVE DONE

I have done a great deal of volunteer work for political campaigns and religious activities. I have served on political campaigns in Burlington, Gibsonville, and Alamance County. I was the assistant secretary for my church. In this capacity, I performed many different types of administrative tasks like keeping notes, counting members, and receiving membership certificates from other churches. I am writing a biography for a local statesman. At present, I am taking time to prepare for Law School. I will likely go to Elon Law School so I will stay at home in Gibsonville.
