Interests & Experiences

Why are you interested in serving on a board or commission?

I would like to further my community involvement to the county level. I believe civic engagement is fundamental in making a difference within one's community. This country does not owe me anything, but I have a debt to this country for the opportunity's it has given me. This debt continues to encourage me to be involved and to make a difference within local government, our county government and our state by being an advocate for policies that provide citizens with the best opportunity to be successful. While I work as a policy advisor on the state level, I believe the county and local governments can make the most difference in citizens lives. That is why it would be an honor to serve on a board at the county level.
