SECTION B – DESCRIPTION OF PROJECT

Statement of Problem (Provide detailed information of the highway safety problems in your area to be addressed through this project. Include countywide crash data for the last three years and any other relevant information to validate the statements. For more detailed information see "How to write an effective traffic safety project" located at:

<https://connect.ncdot.gov/municipalities/Law-Enforcement/Pages/Law-Enforcement-Reporting.aspx>)

With a population of 500,879 residents, the total number of impaired drivers and unrestrained passengers of motor vehicles in Guilford County has become a monumental concern to not only law enforcement but also to citizens who must travel within this area. In 2012, the Governor's Highway Safety Program funded a DWI Task Force which has worked to improve traffic safety within this jurisdiction. Through cooperation between three law enforcement agencies (The Guilford County Sheriff's Office, Greensboro Police Department and High Point Police Department), the Task Force has begun to make strides to improve public safety within this jurisdiction.

In the first year of the Guilford County Multi-Agency DWI Task Force surpassed the grant goals of the Governor's Highway Safety Program with a 15.5% increase in DWI citations.

Adding a DWI Educator will save more lives by adding a DWI representative to the Guilford County DWI Task Force. This would be a full time position filled by a sworn law enforcement officer with a working knowledge of law enforcement to relay the information needed for traffic safety in these fields. The public needs to be educated in the enforcement of these areas in order to help prevent deaths on the highways of North Carolina as a result of these types of negligent activities. Most public encounters with the officers only occur when they are arrested for one of these charges, something bad happens or it is seen in the news. I feel through proper education and training to the public we can reduce the fatal accidents before any of these situations arise.

The education of the public will be a huge responsibility for this person to undertake. Due to this position being assigned to the Greater Guilford DWI Task Force all departments on the task force should be involved. The person assigned to this position will be responsible for the coordination of events Media and solicitation of each of the department's traffic units to assist with these events. This will allow all departments in the county to receive credit for their efforts in the reduction of traffic fatalities. A lot of this can be accomplished with the group effort of TV media and radio stations. The educator position will work hand and hand with both media outlets.

PROPOSED SOLUTION:

The goal of local law enforcement is to reduce the number of DWI-related accidents which lead to injury and death in Guilford County. To help achieve this goal, the Guilford County Sheriff's Office, Greensboro Police Department and High Point Police Department will collaborate together to complete this goal by completing the following goals.

Schools

With the support of the Guilford County School administration, we would continue the instruction of students in dealing with the education of alcohol and its effects on the body, the repercussions of drinking and driving. The DWI Task Force currently teaches two schools the Fatal Vision program to driver education classes in the County this could expand to all driver's education classes in the County.

This implementation would require the update of the current Fatal Vision Power Point and incorporate a Virtual Interactive Impaired Driver and Distracted Driving Simulator that would utilize the Fatal Vision impaired goggles. The additional four hour block of instruction would allow the students to experience the simulated effects alcohol after receiving the program's information.

Corporate and Small Business

A couple of areas that are often overlooked are the larger corporations and small businesses. In these areas there are a large amount of people that do not understand all of the ramifications of driving while impaired and with education may change their habits. The same four block of instruction used in the schools could be modified to be utilized in this area. A controlled drinking exercise is also being researched to be used in this setting as well.

Insurance Companies

Partner with local Insurance Companies and offer this class to their clients that have been charged with DWI and Alcohol Offenses.

Alcohol Establishments

Partner with the North Carolina Alcohol Law Enforcement to offer the class to local alcohol establishment owners as well as their bartenders to educate them on the signs of impairment as well as identifying false drivers licenses and identification cards. The bars that will be involved are known or working bars or clubs that are known to have issues with over serving customers or have knowledge of a large amount of impaired drivers being arrested. We will also outline the financial loss that could be incurred by the establishment and owner for the illegal serving of alcohol to either intoxicated or underage patrons. This could be accomplished by conducting a controlled drinking environment to demonstrate the signs and effects of impairment.

Request General Public and Departments Citizens Academy

Address requests from the public and coordinate the education of the effects of alcohol and DWI arrest. This could include the attending of public events to speak on these issues as well as supplying information or brochures on these subject matters. Attend public venues to set up a booth to cover the dangers of driving while impaired.

Courts, DA's Office and MADD

All of the above programs could be made available to the courts to educate court personnel on the use of these programs. Assist MADD with the outreach alcohol program in Guilford County every month.

Paid Media and Local Media Coverage

Work with local departments PIO and GHSP PIO to make sure the correct and accurate information is always given to the media. Work with alcohol distributors and sellers to cover the dangers of Drinking and Driving. Work with media with information on drinking and driving. Work with North Carolina Governor's Highway Safety Program to inform the public of dangers of driving while impaired through Public Service Announcements. Purchase flyers and brochures to distribute to promote no drinking and driving or driving while impaired.

Job Description

The person selected for this position must be able to speak in front of large crowds and possess extensive knowledge in dealing with impaired driving, the effects of alcohol and many other traffic laws. As well as being able to research and gather statistical information related to the above offences. They should be trained in field sobriety training, horizontal gaze nystagmus. They must be willing to learn the setup and use of a virtual interactive simulator. They should have a working knowledge of Microsoft Office and its programs. Be willing to work all different ours of the day not just day shift. The hours for this position will need to be flexible to adjust to the times of the events or meetings.

The mobile data air card monthly fees will be paid from the remaining monies left from the purchase of mct and equipment The continue years will be budgeted accordingly.

As part of this project all law enforcement agencies must enter traffic enforcement citations data of their agency for the past three years.
