8.7 POPULATION LOCATIONS

Federal-aid recipients are required to identify the characteristics and locations of populations they serve, particularly by race/ethnicity, poverty and limited English proficiency. We will document this narratively or through maps that overlay boundaries and demographic features on specific communities, and provide this information to NCDOT, upon request.

9. TITLE VI EQUITY ANALYSES (AND ENVIRONMENTAL JUSTICE ASSESSMENTS)

Title VI Equity Analyses. In accordance with FTA Circular 4702.1B, a Title VI equity analysis will be conducted whenever we construct a facility, such as a vehicle storage facility, maintenance facility, or operation center. The equity analysis will be conducted during the planning stage, with regard to the location of the facility, to determine if the project could result in a disparate impact to minority communities based on race, color or national origin. Accordingly, we will look at various alternatives before selecting a site for the facility. Project-specific demographic data on potentially affected communities and their involvement in decision-making activities will be documented. Title VI Equity Analyses will remain on file indefinitely, and copies will be provided to NCDOT, upon request, during compliance reviews or complaint investigations.

Environmental Justice Analyses. As required by FTA C 4703.1, environmental justice (EJ) analyses will be conducted to determine if our programs, policies, or activities will result in disproportionately high and adverse human health and environmental effects on minority populations and low-income populations. EJ applies to our projects, such as when we construct or modify a facility, and our policies, such as when there will be a change in service, amenities or fares. Thus, we will look at various alternatives and seek input from potentially affected communities before making a final decision. Demographic data will be collected to document their involvement in the decision-making process. EJ analyses will remain on file indefinitely, and copies will be provided to NCDOT, upon request, during compliance reviews or complaint investigations.

10. PUBLIC INVOLVEMENT

10.1 INTRODUCTION

Effective public involvement is a key element in addressing Title VI in decision-making. This **Public Participation Plan** describes how Guilford County Transportation & Mobility Services (GCTAMS) will disseminate vital agency information and engage the public. We will seek out and consider the input and needs of interested parties and groups traditionally underserved by transportation systems who may face challenges accessing our services, such as minority and limited English proficient (LEP) persons. Underlying these efforts is our commitment to determining the most effective outreach methods for a given project or population.

General public involvement practices will include:

- Expanding traditional outreach methods. Think outside the box: Go to hair salons, barbershops, street fairs, etc.
- Providing for early, frequent and continuous engagement by the public.
- Use of social media and other resources as a way to gain public involvement.
- Coordinating with community- and faith-based organizations such as the Hispanic Liaison, educational institutions, and other entities to implement public engagement strategies that reach out specifically to members of affected minority and/or LEP communities.
- Providing opportunities for public participation through means other than written communication, such as personal interviews or use of audio or video recording devices to capture oral comments.
- Considering radio, television, or newspaper ads on stations and in publications that serve LEP populations. Outreach to LEP people could also include audio programming available on podcasts.

10.2 PUBLIC NOTIFICATION

Passengers and other interested persons will be informed of their rights under Title VI and related authorities with regard to our program. The primary means of achieving this will be posting and disseminating the policy statement and notice as stipulated in Sections 3.0 and 4.0, respectively. Additional measures may include verbally announcing our obligations and the public's rights at meetings, placing flyers at places frequented by targeted populations, and an equal opportunity tag-on at the end of radio announcements. The method of notification will be determined through an initial screening of the area.

10.3 DISSEMINATION OF INFORMATION

Information on Title VI and other programs will be crafted and disseminated to employees, contractors and subrecipients, stakeholders, and the general public. Public dissemination efforts may vary depending on factors present, but will generally include: posting public statements setting forth our nondiscrimination policy in eye-catching designs and locations; placing brochures in public places, such as government offices, transit facilities, and libraries; having nondiscrimination language within contracts; including nondiscrimination notices in meeting announcements and handouts; and displaying our Notice of Nondiscrimination at all our public meetings.

At a minimum, nondiscrimination information will be disseminated on our website and on posters in conspicuous areas at our office(s). Project-related information and our most current Title VI-related information will be maintained online.

10.4 MEETINGS AND OUTREACH

There is no one-size-fits-all approach to public involvement. A variety of comprehensive and targeted public participation methods will be used to facilitate meaningful public involvement. Methods for engaging stakeholders and target audiences, including traditionally underserved and excluded populations (i.e., minorities, youth, low-income, the disabled, etc.) will include the following:

Public Relations and Outreach

Public relations and outreach (PRO) strategies aim to conduct well-planned, inclusive and meaningful public participation events that foster good relations and mutual trust through shared decision-making with the communities we serve.

- We will seek out and facilitate the involvement of those potentially affected.
- Public events will aim to be collaborative, fun, and educational for all, rather than confrontational and prescriptive.
- Media plans will typically involve multiple channels of communication like mailings, radio, TV, and newspaper ads.
- Abstract objectives will be avoided in meeting announcements. Specific "attention-grabbing" reasons to attend will be used, such as "Help us figure out how to relieve congestion on [corridor name]" or "How much should it cost to ride the bus? Let us know on [date]."
- Efforts will be made to show how the input of participants can, or did, influence final decisions.
- We will do our best to form decision-making committees that look like and relate to the populations we serve.
- We will seek out and identify community contacts and partner with local community- and faith-based organizations that can represent, and help us disseminate information to, target constituencies.
- Demographic data will be requested during public meetings, surveys, and from community contacts and committee members.

Public Meetings

“Public meeting” refers to any meeting open to the public, such as hearings, charrettes, open house and board meetings.

- Public meetings will be conducted at times, locations, and facilities that are convenient and accessible.
- Meeting materials will be available in a variety of predetermined formats to serve diverse audiences.
- An assortment of advertising means may be employed to inform the community of public meetings.
- Assistance to persons with disabilities or limited English proficiency will be provided, as required.

Small Group Meetings

A small group meeting is a targeted measure where a meeting is held with a specific group, usually at their request or consent. These are often closed meetings, as they will typically occur on private property at the owner’s request.

- If it is determined that a targeted group has not been afforded adequate opportunities to participate, the group will be contacted to inquire about possible participation methods, including a group meeting with them individually.
- Unless unusual circumstances or safety concerns exist, hold the meeting at a location of the target group’s choosing.
- Share facilitation duties or relinquish them to members of the target group.
- Small group discussion formats may be integrated into larger group public meetings and workshops. When this occurs, the smaller groups will be as diverse as the participants in the room.

Community Surveying

- Opinion surveys will occasionally be used to obtain input from targeted groups or the general public on their transportation needs, the quality or costs of our services, and feedback on our public outreach efforts.
- Surveys may be conducted via telephone, door-to-door canvassing, at community fairs, by placing drop boxes in ideal locations, or with assistance from other local agencies like social services.
- Surveys will be translated into languages other than English, when appropriate.

10.5 “LANGUAGE ACCESS PLAN”

Language Access Plan (LAP) persons are individuals for whom English is not their primary language and who have a limited ability to read, write, speak, or understand English. These individuals reported to the U.S. Census Bureau that they speak English less than very well.

To comply with USDOT’s this section of our Title VI Plan outlines the steps we will take to ensure meaningful access by LEP persons to all benefits, services and information provided under our programs and activities. A four-factor analysis was conducted to determine the LEP language groups present in our planning area and the specific language services that are needed.

Four Factor Analysis

This Four Factor Analysis is an individualized assessment that balances the following four factors:

- (1) The number or proportion of LEP persons eligible to be served or likely to be encountered by a program, activity, or service of the recipient or grantee;
- (2) The frequency with which LEP individuals come in contact with the program;
- (3) The nature and importance of the program, activity, or service provided by the recipient to people’s lives; and
- (4) The resources available to the recipient and costs.

Factor #1: The number or proportion of LEP persons eligible to be served or likely to be encountered by the program, activity, or service of the recipient.

The US Census Bureau – American Fact Finder (2009-2013) reports there are numerous languages spoken in the USA County. Some of these languages include Spanish, German, Russian, Japanese, Hmong, and Vietnamese. After English, the second language group is Spanish.

The safe Harbor Threshold is calculated by dividing the population group that “speaks English less than very well” by the total population of the county. The LEP Safe Harbor Threshold provision stipulates that for each LEP group that meets the LEP language threshold (5% or 1,000 individuals, whichever is less), the Guilford County & Mobility Services (GCTAMS) & Mobility Services (GCTAMS) Transportation and Mobility Services must provide translation of vital documents in written format for non-English speaking persons.

In USA, County, with a population estimated of 50,477,594 persons have identified themselves as Spanish speaking and “speaks English less than well”. This language group is less than 1% and below 5%- or 1,000-person threshold. This means the Guilford County Transportation & Mobility Services (GCTAMS) is not required to provide written translation of vital documents. All of the other language groups listed above are also below the safe harbor threshold. This means, currently, Guilford County Transportation & Mobility Services (GCTAMS) is also not required to provide a written translation of vital documents in these languages.

Even though the Guilford County Transportation & Mobility Services (GCTAMS) is below the safe harbor threshold and is not required to provide written translation of vital documents in such languages and also consider measures needed for oral interpretation

The following table was completed using data from Census Table S16001, Language Spoken at Home for the Population 5 Years and Over. 2023 ACS 5-Year Estimates.

Factor #2: The frequency with which LAP individuals come in contact with the program.

LEP persons are person identified as speaking English less than very well, not well or not at all. Just because a person speaks a language other than English doesn't mean they don't speak English or are identified as LEP. The summary below discussed the frequency with which **Guilford County Transportation & Mobility Services (GCTAMS)** staff meet LEP people. It also provides information on how staff are instructed to meet the needs of LEP people.

The Guilford County Transportation & Mobility Services (GCTAMS) will be trained on what to do when they encounter a person that speaks English less than well. The Guilford County Transportation & Mobility Services (GCTAMS) will track the number of encounters by spreadsheet and consider adjusting as needed to its outreach efforts to ensure meaningful access to all people and specifically to LEP and minority populations of the Guilford County Transportation & Mobility Services (GCTAMS) programs and services.

Guilford County Transportation & Mobility Services (GCTAMS) provides over 42,000 trips per year. Guilford County Transportation & Mobility Services (GCTAMS) has encountered LEP people using the service within the last six months.

Guilford County Transportation & Mobility Services (GCTAMS) has an open-door policy and will provide rides for any person who requests a ride. If an individual has speech limitations, the dispatcher or driver will work with the Transit Manager., if needed to ensure the individual receives access to the transportation service.

Factor #3: The nature and importance of the program, activity, or service provided by the recipient to people's lives.

The summary below discusses how **Guilford County Transportation & Mobility Services (GCTAMS)** program and services impact the lives of people within the community. Guilford County Transportation & Mobility Services (GCTAMS) will specify the community organizations they serve LEP people, if available.

The Guilford County Transportation & Mobility Services (GCTAMS) understands an LEP person with language barrier challenges also faces difficulties obtaining health care, education or access to employment. A transportation system is a key link to connecting LEP people to these essential services.

Guilford County Transportation & Mobility Services (GCTAMS) has identified activities and services which would have serious consequences for individuals if language barriers prevented access to information or the benefits of those programs. The

activities and services include providing emergency evacuation instructions in our facilities, stations and vehicles and providing information to the public on security awareness or emergency preparedness.

The Guilford County Transportation & Mobility Services (GCTAMS) assessment of what programs, activities and services that are most critical include contact with community organization(s) that serve LEP persons, as well as contact with LEP persons themselves that are provided to the LEP populations.

Factor #4: The resources available to the recipient and costs.

Even though Guilford County Transportation & Mobility Services (GCTAMS) does have a separate budget for LEP outreach, the county has worked with our system to implement low-cost methods of reaching LEP persons. For example, the Guilford County Transportation & Mobility Services (GCTAMS) has a Spanish speaking person on staff that are bilingual. This has ensured the Guilford County Transportation & Mobility Services (GCTAMS) can provide assistance to LAP Spanish speaking persons, if needed. In addition, Guilford County Transportation & Mobility Services (GCTAMS) work with local advocacy groups to reach LEP populations.

The summary below discusses the low-cost methods used by Guilford County Transportation & Mobility Services (GCTAMS) to provide outreach to LEP persons as well as train staff on Title VI and LEP principles.

Additional Required Elements

In addition to the Four Factors Analysis (listed below as item #1), the Guilford County Transportation & Mobility Services (GCTAMS) will address the following elements.

- Item #2: A description of how language assistance services are provided by language.
- Item #3: A description of how LEP people are informed of the availability of language assistance service
- Item #4: A description of how the language assistance plan is monitored and updated
- Item #5: A description of how employees are trained to provide language assistance to LEP people.

And any additional information deemed necessary.

LANGUAGE ASSISTANCE PLAN

As a result of the above four factor analysis, a Language Assistance Plan (Plan) was required. This Plan represents our commitment to ensuring nondiscrimination and meaningful access by persons who are Limited English Proficient (LEP). This Plan also details the mechanisms we will use to reach LEP persons and the language assistance services we provide. We will provide services to any person, upon request. If an individual is LEP, we will work with the individual to ensure they receive the transportation service needed. Our employees will be routinely oriented on the principles and practices of Title VI and LEP to ensure fairness in the administration of this Plan.

or

As a result of the above four factor analysis, a Language Assistance Plan (LAP) was not required. However, reasonable attempts will be made to accommodate any person encountered who requires written translation or oral interpretation services.

Language Assistance Measures

The following general language assistance measures are reasonable and achievable for our organization currently:

- Translating public notices posted in the local paper and at stations, stops, and in vehicles into **any languages that meet the safe harbor threshold in Factor 1**.
- Vital documents—such as brochures with service times and routes—are translated into Spanish or any other languages across the entire service area, and available in our facilities, churches, doctor's offices and shopping centers.
- Making a concerted effort to inform LEP persons of available language assistance via staff, broadcast media, relationship-building with organizations, and our website.
- Posting vital bulletin board information and disseminating community surveys in various languages.
- Providing translation and interpretive services when appropriate (upon request or predetermined) at meetings.
- Determining how best to take public involvement to LEP groups directly, including through small group meetings.
- Language line translation services at our call center (336) 641-3000.
- Where possible, utilizing or hiring staff who speak a language other than English and can provide competent language assistance.
 - Note: We will not ask community-based organizations (CBO) to provide, or serve as, interpreters at our meetings. Relying upon CBOs in that capacity could raise ethical concerns. If a CBO decides (on its own) to translate any materials for its constituents, or bring interpreters it trusts to our meetings, we will not object. That is their right.
- Using language identification flashcards to determine appropriate services.
- Establishing a process to obtain feedback on our language assistance measures.

Written Translation and Oral Interpretation

Vital documents will be translated for each eligible LEP language group in our service area that constitutes 5% or 1,000, whichever is less, of the population of people eligible to be served or likely to be encountered. Translated materials will be placed online and in appropriate public (or private) places accessible to LEP people. The safe harbor provisions apply to the translation of written documents only, and do not affect the requirement to provide meaningful access to LEP individuals through competent oral interpreters where oral language services are needed and are reasonable. When appropriate, translation of any document will be communicated orally in the appropriate language.

In the event that the 5% trigger is reached for a LEP language group that is fewer than 50 people, written notice will be provided in the primary language of that group of the right to receive competent oral interpretation of vital written materials, free of cost. The most effective method of notice, which could be an ad in the local newspaper or other publication, a radio commercial, or door hangers, will be determined in consideration of the circumstances on the ground and in coordination with LEP community contacts.

Staff Support for Language Assistance

- Agency staff (including call center staff) will be provided with a list of referral resources that can assist LEP persons with written translation and oral interpretation, including the Title VI Officer and any outside consultant contracted to provide language services. This list will be updated as needed to remain current.
- All main offices and vehicles will have on hand a supply of language assistance flashcards and materials translated into the languages of the largest LEP language groups. When encountered by an LEP person, staff (including drivers) should present the individual with an speak flashcard and let them choose the language. Do not assume you know their preferred language. Drivers are permitted to seek

volunteer assistance from other passengers before contacting a referral resource. Document the encounter and report it to the Title VI Coordinator.

- **Training:** All employees will be instructed on our procedures to provide timely and reasonable assistance to LEP people. New employee orientation will also explain these procedures to new hires. Staff routinely encountering LEP people by telephone or in person will receive annual refresher training. All other employees will be reminded of LEP through annual Title VI program acknowledgements ([Section 5.0](#)) and basic Title VI trainings ([Section 11.0](#)).

Project-Specific LEP Outreach

- **Spanish:** GCTAMS provides translation services using internal bi-lingual employees to assist with translation needs of customers. Our rider brochure and web sites are also provided in Spanish as well as English. There are no other non-English speaking groups that number 5% or 1,000 people in Guilford County. Also, public notice of grant applications being applied for are publicized in local newspapers in both English and Spanish. Written Translation and Oral Interpretation Vital documents will be translated for each eligible LEP language group in our service area that constitutes 5% or 1,000, whichever is less, of the population of persons eligible to be served or likely to be encountered. Translated materials will be placed online and in appropriate public (or private) places accessible to LEP persons. The safe harbor provisions apply to the translation of written documents only, and do not affect the requirement to provide meaningful access to LEP individuals through competent oral interpreters where oral language services are needed and are reasonable. The most effective method of notice, which could be an ad in the local newspaper or other publication, a radio commercial, or door hangers, will be determined in consideration of the circumstances on the ground and in coordination with LEP community contacts.

This list will be updated as needed to remain current.

Drivers are permitted to seek volunteer assistance from other passengers before contacting a referral resource. Document the encounter and report it to the Title VI Coordinator.
- **Training:** All employees will be instructed on our procedures for providing timely and reasonable assistance to LEP persons. New employee orientation will also explain these procedures to new hires. Staff routinely encountering LEP persons by telephone or in person will

receive annual refresher training. All other employees will be reminded of LEP through annual Title VI program acknowledgements (Section 5.0) and basic Title VI trainings (Section 11.0).

Monitoring and Updating the LAP

Monitoring daily interactions with LEP persons will be continuous, thus language assistance techniques may be refined at any time. This Plan will be periodically reviewed—at least annually—to determine if our assistance measures and staff training are working. Resource availability and feedback from agency staff and the general public will be factors in the evaluation and any proposed updates. Among other practices, this process will include working with LEP community contacts to determine if our employees are responding appropriately to requests made with limited English or in languages other than English, and observing how agency staff responds to requests, including observing drivers or surveying riders. To the best of our ability, we will attempt to never eliminate a successful existing LEP service. Significant LEP program revisions will be approved or adopted by our board or designated official and dated accordingly. LEP data and procedures will be reviewed and updated at least once every three years.
