

Jorge Ortega
Animal Services Director

Hill's Pet Nutrition Sales, Inc., provides a unique discount feeding program to animal shelters. Hill's provides Animal Services with general maintenance pet food and supplies our animal shelter with a variety of specialties and prescription pet food for a variety of health concerns and medical issues. By providing our pets with a consistent daily diet, it reduces the medical expenses of treating digestive issues due to inconsistent diets. With a weekly delivery schedule, Hill's can handle the high volume of pet food required by Animal Services. In the event Animal Services had to respond to an emergency where our animal population is drastically increased, Hill's would be able to handle the additional animal population.
