County Commissioner District

Interests & Experiences

Why are you interested in serving on a board or commission?

I am interested in serving on this board because I have a very real passion for animals. We have a reputation in the South for having pitiful animal shelters. I would like to help change that perception in Guilford County. Currently Wake County has a stellar animal shelter. If they can do it, so can we!

Question applies to multiple boards.

Briefly list your professional, educational and volunteer experiences that are most relevant to the mission and duties of this board:

I currently work as a constituent liaison in Congressman Walker's office. I worked as a school teacher for 15 years before that. I have served on the board at Greensboro Urban Ministries. I graduated with a degree in Communications from Appalachian State University.

Question applies to Guilford County Animal Services Board.

Please list your experiences with animal services, animal control, and animal rescues; and discuss your ideas for improving the well-being of pets and the animal population, in general, within Guilford County.

I do not have specific experience with the above mentioned services, we have assisted with a few animal rescues. I have general knowledge from a daughter who is now in her first year in Vet School at NC State. What I do know is that after the fiasco with the Williams situation we should be striving for a shelter that is exemplary in how it is run. From a very recent pet adoption that we helped a friend with, I know that is not the case. The fact that there are no protocols or procedures in place is pretty unbelievable. The fact that workers/volunteers leave at 5:00 but the shelter is open till 6:00 (oftentimes leaving the public to go in and take out the dogs by themselves) is absurd and an accident waiting to happen.
