Participation is open to federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Body Armor with Related Accessories, Equipment, and Services from which Vendor was awarded a contract.

Vendor desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

- A. **EFFECTIVE DATE.** This Contract is effective upon the date of the final signature below.
- B. **EXPIRATION DATE AND EXTENSION.** This Contract expires February 19, 2025, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended up to one additional one-year period upon request of Sourcewell and with written agreement by Vendor.

Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. **WARRANTY.** Vendor warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Vendor warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Vendor's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that is effective past the expiration of the Vendor's warranty will be passed on to the Participating Entity.

C. **DEALERS, DISTRIBUTORS, AND/OR RESELLERS.** Upon Contract execution, Vendor will make available to Sourcewell a means to validate or authenticate Vendor's authorized dealers, distributors, and/or resellers relative to the Equipment, Products, and Services related to this Contract. This list may be updated from time-to-time and is incorporated into this Contract by reference. It is the Vendor's responsibility to ensure Sourcewell receives the most current version of this list.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced as stated in Vendor's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Vendor must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable

time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery.

Vendor must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcwell may declare the Vendor in breach of this Contract if the Vendor intentionally delivers substandard or inferior Equipment or Products. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Vendor as soon as possible and the Vendor will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

B. SALES TAX. Each Participating Entity is responsible for supplying the Vendor with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Vendor may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Vendor determines it will offer Hot List Pricing, it must be submitted electronically to Sourcwell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcwell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Vendor may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcwell Price and Product Change Request Form to the assigned Sourcwell Contract Administrator. This form is available from the assigned Sourcwell Contract Administrator. At a minimum, the request must:

- Identify the applicable Sourcwell contract number;

- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing

restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Vendor understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Vendor that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Vendor. Typically, a Participating Entity will issue an order directly to Vendor. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration of this Contract; however, Vendor performance, Participating Entity payment, and any applicable warranty periods or other Vendor or Participating Entity obligations may extend beyond the term of this Contract.

Vendor's acceptable forms of payment are included in Attachment A. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Vendor, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be worked out directly between the Participating Entity and the Vendor. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements) not addressed in this Contract, the Participating Entity and the Vendor may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. **TERMINATION OF ORDERS.** Participating Entities may terminate an order, in whole or in part, immediately upon notice to Vendor in the event of any of the following events:

The Vendor will submit payment to Sourcwell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Vendor's name and Sourcwell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcwell's banking institution per Sourcwell's Finance department instructions. How will Sourcewell participating entities in these regions be provided service for warranty repair?	Body armor would never need a warranty repair. It would need a re-size or replacement based off warranty language which can be done by the Galls sales representatives anywhere in the United States.	*
46	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	As a distributor of these products the warranties are handled by each individual manufacturer for the items on this proposal. Each manufacturer has their own warranty language based on the product.	*
47	What are your proposed exchange and return programs and policies?	Trust is crucial to a team and, as your partner, we want to make sure our products match your expectations. We offer two levels of returns: 30-day Comfort Guarantee: If you are not completely satisfied with your body armor, simply return them within 30 days from the date you received your order for a refund or exchange. Some restrictions apply. We are hyper focused on our customers so although returns/exchanges can be on a case by case basis we will do what is necessary for the customer whether that is a re-fit, working with the manufacturers to adjust or re-make the vests or a complete replacement. We will make sure we make it right for our customers.	*
48	Describe any service contract options for the items included in your proposal.	We do not have service contract options but our sales team will be able to provide service to any and all customers utilizing this Sourcewell contract.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
49	What are your payment terms (e.g., net 10, net 30)?	Net 30	*
50	Describe any leasing or financing options available for use by educational or governmental entities.	Galls does not provide any leasing or financing options for the goods we provide.	*
51	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcewell participating entities' purchase orders.	Galls provides a full service ordering process with online, in person, over the phone, or through email we allow our customers to purchase whichever way is easiest for them. Each account has dedicated reps that can be emailed or called for order placement, this can also be handled by our expert customer service staff. Our customers can also utilize any of our branch locations to be sized and place orders directly. Lastly, we have an online ordering portal known as eEquip we can setup Sourcewell pricing on its exclusive online ordering portal to be utilized by our customers. Reporting: If awarded, we will create a contract specific pricelist and source code. A source code acts as quick option to identify contract specific pricing for our Co-Op Contracts. When a rep receives and order an is informed that the agency is utilizing the Sourcewell contract, they apply the source code to the order which will guarantee that the customer receives the contract pricing. The rep would then contact the contract manager and state that a new customer has requested Sourcewell pricing. The contract manager will review the customer information and verify that this agency should always have the option to receive Sourcewell pricing. If continued use is approved by the contract manager, they will tie the customer's specific account number to the Sourcewell pricelist so that the account is setup to pull Sourcewell Pricing. The Contract Manager will run weekly reports on the Source Code to verify that new customer account additions to the pricelist have not been overlooked. At required reporting milestones, the Contract Manager will run a report based upon the pricelist which will pull all sales for account numbers tied to it.	*
52	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Galls accepts P-Cards for payments on orders. We do not limit the use or charge fees when a procurement card is used for payment.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
53	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	We have attached our pricing model and priced each item out individually with SKU's provided. This is a Catalog Discount and the discounts will vary between 20% - 40%. Catalog Pricing is attached and will show each sku's specific discount % received and pricing for Sourcewell Customers
54	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Percentage range is 20% - 40%
55	Describe any quantity or volume discounts or rebate programs that you offer.	We are offering a volume discount as follows: 2% - \$25,000 - \$49,999 4% - \$50,000 - \$99,999 6% - \$100,000 or more
56	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	We will supply a quote for each such request based on customer, volume, product selected etc.
57	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	The pricing included in this bid are priced as is. There is no additional cost structure involved in this pricing. The sizing, pre-delivery inspection, and initial inspection are all offered at no charge from our sales and service staff.
58	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Freight/Delivery typically depends on the product, weight and where the item is being shipped. Freight charges may be applied to orders tied to this contract but if the customer ships to a Galls location and opts for pickup or if the product is drop shipped from the manufacturer to the customer no freight charges will be included. Please see our technical capability attached in the documents for additional information on freight charges.
59	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Freight charges will be the same for Alaska or Hawaii as listed in the above question. If the product is dropshipped from the manufacturer to the customer no freight will be applied. If the order is shipped from a Galls facility to the customer freight will be determined based on weight and distance.
60	Describe any unique distribution and/or delivery methods or options offered in your proposal.	We have several unique distribution options for instance we can ship complete or ship individually as items become available. Additionally we can consolidate our shipping to reduce shipping charges and in conjunction with our green initiatives. We can work with our manufacturing partners to ensure that items are drop shipped directly to them from the manufacturer to decrease order time and eliminate shipping costs. Finally we can ship to one of our 80 branch locations and the customer can pickup products to eliminate shipping costs.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
62	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcwell. This process includes ensuring that Sourcwell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcwell.	If awarded, a pricelist will be created for all products on the catalog. This catalog will be marked formal by the Contract Management Specialist which will lock in customer pricing to that Specialist only. If any increases are warranted through the life of the contract. The Contract Specialist will be the only representative within the company with access to the pricing and will be responsible for the updates. This provides you a personalized contact for your customers and removes errors that can be caused when too many people have access to change a customer's pricing. Any customer purchasing off the sourcwell contract will be tied to the pricelist and automatically receive Sourcwell pricing. The Contract Specialist will also have a Hold Bucket created which will hold any orders over \$25,000 so they can be reviewed prior to completion. This creates a check and balance between or Sales/Store reps and the Contract specialist
63	Identify a proposed administrative fee that you will pay to Sourcwell for facilitating, managing, and promoting the Sourcwell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	1.5% administrative fee quarterly

Table 15: Industry Specific Questions

Line Item	Question	Response *	
73	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Our Contract Specialist will be responsible for compliance with the terms of this contract. They will run all sales reports which will show them the progress at which sales are growing. They will also setup meetings with customer's that piggyback off our contract to check on the quality of service and products they are receiving. These meetings will be used to gauge customer satisfaction as well as discuss any potential additions they would like to see on the contract. Sales is a great indicator of success, but sales mean nothing if our customer's are not happy with our company.	*
74	Describe any performance standards that your products meet and how they are tested.	We are the distributor of these products so all products are tested at the manufacturer level. That said all ballistic products that we distribute and are proposing are NIJ Certified and have to go through the NIJ Certification testing NIJ administers a program to test commercially available armor for compliance with the standards to determine whether the vests will perform as expected. In addition to being tested for NIJ compliance, body armor models must meet workmanship and labeling requirements. NIJ also has a follow-up inspection and testing requirement to ensure that the body armor worn by officers is safe and reliable. Each body armor manufacturer with a model that meets the standard is subject to six follow-up inspections and testing over a five-year period, consisting of: Inspections of recently manufactured vests to determine whether they are constructed in the same way as the original samples. Follow-up ballistic testing. NIJ's Criminal Justice Testing & Evaluation Consortium manages the compliance testing program.	*
75	Provide an overview of your Quality Management System and identify any accreditations it has received.	As distributors our quality control is making sure you receive the items that you order. Our manufacturers are tested on quality and workmanship as part of their NIJ Certification process.	*
76	Describe any design and manufacturing processes or materials utilized that contribute to enhanced protection, overall durability, and increased wearer mobility and safety that differentiate your offerings.	As the distributor of these products we do not handle the manufacturing of any of the products. Our Galls brand armor is manufactured by Point Blank Enterprises and NIJ Certified through them. What differentiates our offerings compared to others is we are not tied to a single line of body armor. We can provide various manufacturers and let the customer decide what fits best, is the most comfortable and what they determine is safest and still be able to utilize the Sourcewell contract.	*
