RE: Grimsley High School Roof Replacement

On March 24, 2016, the Guilford County Board of Education (BOE) approved a transfer of \$255,153 in Public School Building Capital Fund (PSBCF) and capital maintenance dollars to the Roofing System-wide project ordinance to replace the roofs on the auditorium and classroom sections 6 & 8 at Grimsley High School. We are requesting these funds be transferred from the completed High Point SCALE site project ordinance (\$254,494) with the remaining amount from the GCS Capital Maintenance 2016 project ordinance (\$659).

The BOE is requesting that an item be placed on the Guilford County Board of Commissioners' (BOCC) consent agenda of May 5, 2016 seeking approval of the transfer cited above. Guilford County Schools' staff members will be present at the meeting to answer questions. Please call me at 370-8343 if commissioners have any questions and/or need any additional information regarding this item prior to the meeting.

Once the transfer is approved, we will complete the PSBCF application for approval by the board chairs.

C: Board of Education
