

Guilford County Department of Health & Human Services - Social Services

State Mandated Key Performance Measures Report for November 2023

What are these performance measures?

In 2017, the North Carolina General Assembly passed the Family/Child Accountability and Protection Act/Rylan's Law - Session Law 2017-41. The law requires all counties to enter into an annual agreement, a Memorandum of Understanding (MOU), with the NC Department of Health and Human Services (NCDHHS) for all social services programs excluding medical assistance (NC Medicaid). Medical Assistance (NC Medicaid) has separate performance standards set under a separate NCDHHS policy. The goal of these annual agreements and standards is to support the provision of consistent, quality child welfare and social services that ensure the safety, health and well-being of children, adults and families served across North Carolina and it establishes a set of standard performance measures for delivery of services.

How often are these measures reported?

Guilford County Social Services monitors and reports its performance in each of these measures to the Board of Commissioners on a monthly basis, and ensures the standards and MOU are updated annually.

Some measures have months where performance data was not available - these months are represented as "0" values in this report.

Work First (State MOUs WF 3-4)

Work First provides parents with services such as short-term training to help them become employed and move toward self-sufficiency through the Employment & Career Services programs. Other families, where grandparents and other relatives are caring for their relative’s children, can receive services and support that also prevents children from entering the foster care system unnecessarily. Eligibility determinations are based on living arrangements, age, kinship requirements, citizenship/alien status, social security number verification, income, and resources.

Medicaid Application Timeliness

Medicaid is a health insurance program for aged, disabled, and low-income individuals and families who cannot afford health care costs. Eligibility determinations are based on age, disability status, income, necessity of long-term care, Medicare status, citizenship/immigration status, residency, and income. Beneficiaries who receive Supplemental Security Income, Work First, or Special Assistance for the Aged or Disabled are automatically eligible for Medicaid. Medicaid timeliness is evaluated over a three-month period with failure to meet the performance standard requiring three months of underperformance; this report includes two months from the prior year due to this standard.
