Job Title

Which Boards would you like to apply for?

Guilford County Animal Services Board: Reapplying

County Commissioner District *

☒ District 1

Interests & Experiences

Why are you interested in serving on a board or commission?

I am interested in serving on a board because it would provide me the opportunity to work in a capacity that I am compassionate about. Serving on the Guilford County Animal Services board is a great opportunity to give back to my community and provide a positive impact to the animal population and those who share a love for animals as well. This would be a rewarding experience where I can gain expertise on complex issues and participate in community development.

Question applies to multiple boards

Briefly list your professional, educational and volunteer experiences that are most relevant to the mission and duties of this board:

Veterinary Assistant Shift Supervisor; Emergency Veterinary Assistant; B.S. in Biology from High Point University; currently obtaining a B.S. in Animal Science from North Carolina A&T State University; Former Kennel Assistant

Question applies to Guilford County Animal Services Board

Please list your experiences with animal services, animal control, and animal rescues; and discuss your ideas for improving the well-being of pets and the animal population, in general, within Guilford County.

I have had experience with animal control through my current work environment. As a technician at a local emergency clinic, I am exposed to pets who have been separated from their owners or have simply been found roaming within the county. Within my workplace, there is a relationship with the animal control department where an officer will transport stray animals from our facility to the Guilford County Animal Shelter. We are also able to contact the animal control department in cases where we suspect animal abuse, cruelty or potential exposure to the rabies virus. I have also had experience with 2 rescue agencies, "Animal Rescue and Foster" and "Ruff Love". I believe it is important to improve the overall quality of care to animals who are housed at an animal shelter or any other animal service facility. It is also my belief that an overall development of care will enhance the clientele experience and therefore change the stigma that is often associated with adoption agencies and local animal shelters.
