## THE PHARMACEUTICAL ADVANTAGE

Bound Tree Medical specializes in emergency medical equipment, supplies and product expertise for EMS providers, supporting customers with EMS-experienced account managers, product specialists and customer service representatives.

In addition to a full line of EMS equipment and supplies, Bound Tree Medical also offers a full line of EMS pharmaceuticals and accessories, including Class II and Class IV drugs.

Bound Tree is known for leadership and professionalism within the industry. We protect our customers and uphold federal standards by complying with regulatory guidelines pertaining to pharmaceuticals. Because of our vast product offering and commitment to high quality service, Bound Tree is the leading choice to fulfill your pharmaceutical needs.

### VAWD Certified State and Nationally Licensed

Several of BoundTree's Distribution Centers have received VAWD (Verified - Accredited Wholesale Distributors) accreditation from the National Association of Boards of Pharmacy (NABP). VAWD accreditation is achieved after a criteria compliance review that includes a rigorous evaluation of operating policies and procedures, licensure verification, survey of facility and operations, background checks and screening through the NABP Clearinghouse. Our accreditation demonstrates that we are in compliance with state and federal laws and that our prescription drugs are distributed safely and securely.

For a complete listing of VAWD-Accredited Facilities, please visit:

[www.nabp.net/programs/accreditation/vawd/vawd-accredited-facilities](http://www.nabp.net/programs/accreditation/vawd/vawd-accredited-facilities)

### Compliant with DSCSA Requirements

Under the Drug Supply Chain Security Act (DSCSA), entities in the supply chain including manufacturers, wholesale distributors, and dispensers have responsibilities to meet the requirements of the DSCSA. As of May 1, 2015 all wholesalers are required by law, under the DSCSA, to provide transaction information, transaction history and transaction statements for the pharmaceuticals that they supply.

BoundTree is compliant with these FDA standards which helps improve patient protection by preventing the distribution of substandard or ineffective drugs and while providing our customers with the product and transaction information they need to be in compliance with the FDA standards.

Under the DSCSA you are responsible for knowing that your prescription drug wholesale distributor is an authorized trading partner who holds a valid state or federal license. BoundTree Medical is licensed federally and in all 50 states. Purchasing from a licensed and VAWD accredited distributor like BoundTree Medical makes great strides to ensure none of your purchases will ever be counterfeit, contaminated, improperly stored and transported, ineffective, and/or unsafe.

Wholesaler Distributor licenses can be searched online:

### Controlled Substance Ordering System (CSOS)

Class II Controlled Substances can be ordered through our secure electronic Controlled Substances Ordering System (CSOS) without the supporting paper DEA Form 222! The DEA's CSOS program is the only allowance for electronic ordering of Class II controlled substances. To participate in CSOS, the DEA registrant must first acquire a CSOS digital certificate from the DEA. Once the certificate is received, Class II orders can be placed through our secured website: [e222.boundtree.com](http://e222.boundtree.com)

For more information about CSOS please visit: [www.deaecom.gov](http://www.deaecom.gov)

*BoundTree will continue to accept paper 222 forms for those who wish to utilize that method for ordering.*

BoundTree Medical is committed to compliance with these federal and state regulations for the benefit of our customers, their communities and their patients. These efforts protect our customers by helping to ensure that they are also compliant with federal and state regulations and practicing safe and effective patient care. With BoundTree Medical, EMS providers know that they will receive pharmaceuticals through a secure and reliable distribution process.

## Pharmaceutical Price Increase

It is Bound Tree's intent not to increase pricing on pharmaceutical products for the initial contract term. However, manufacturers have recently been significantly increasing prices on pharmaceutical products due to market conditions and the associated costs to comply with federal legislations. In the event such price increases occur after the bid award, Bound Tree will notify you of such increases and provide adequate documentation from the manufacturer to demonstrate evidence of increase. The new pricing will then go into effect based on a notification period provided. If the customer does not accept the increase, Bound Tree reserves the right to remove the product(s) from the contract or find an alternative product at no additional cost to Bound Tree.

Customer Service Representatives respond to inbound calls and make outbound calls to customers to provide information regarding product availability, shipment and delivery schedule changes. These same representatives are available to answer questions about shipments or process returns when necessary.

If an item goes onto a long term backorder, Bound Tree will work to find equivalent substitute items for the backorder. If it is the customer preference to approve all substituted items, Bound Tree Customer Service will seek approval prior to shipping sub items.

## Product Return Information

### NON-WARRANTY PRODUCT RETURN POLICY

Prior to returning a product, please contact the Bound Tree Medical Customer Service Department at 800-533-0523 to obtain a return merchandise authorization (RMA) number. This will help us to expedite your return and allow us to give you the proper credit. Once you have received your RMA number please follow the return policy guidelines.

All pharmaceuticals, items with expiration dates, and items that are subject to FDA tracking requirements are not returnable. Bound Tree Medical will only accept returns for pharmaceuticals if it was an error on our part. If so, please contact us within 7 calendar days of receipt of the product to obtain an RMA number. Items received without an RMA or after 15 calendar days will not receive credit.

If Bound Tree Medical makes an error in fulfilling or shipping your order, we will promptly rectify the mistake at no cost to you. If we have made an error and you wish to return the product(s) to us, notification must be received within 15 days of invoice. Following the initial error notification, please follow the return policy guidelines:

Non-returnable Items Include:

1. Items that are special order items.
2. Items that are buy-to-order (BTO) items.
3. Items that have been marked or engraved.
4. Items returned with broken packaging or not in original packaging.
5. Customized items, any sterile product that has been opened or items determined by Bound Tree Medical not to be in resalable condition.
6. Product that is more than 60 days older than the invoice date.

Return Policy Guidelines:

1. Items returned within 30 days of the invoice date will not be subject to a restocking fee.
2. Items returned 31 - 60 days than the invoice date will be subject to a 15% restocking fee.
3. Items older than 60 days from the invoice date will not be accepted in our warehouse and will be returned to the customer.
4. Please write the RMA number clearly on the package label.
5. Enclose a copy of the original invoice or packing list in the box.
6. Send the package freight prepaid.

7. Returns must be received by Bound Tree Medical within 30 days of issuance of RMA number.
8. Items received without a RMA number will not be eligible for credit.

### **RETURNS FOR PERSONAL PROTECTIVE EQUIPMENT (PPE)**

Bound Tree Medical has experienced a significant surge in orders for personal protective equipment (PPE) due to the outbreak of Ebola and we are working closely with our suppliers to keep up with the increased demand. To further this effort and ensure that we do not over-allocate products based upon excess order quantities, PPE products will no longer be eligible for return. Additionally, all open PO's for PPE products will not be cancellable after placement. This policy update is effective October 22, 2014. We will revisit this update when the Ebola crisis has subsided and alert you to any additional changes.

As indicated on the Bound Tree return policy, all returns require an approved RMA number. Items received without an RMA will not receive credit. Please contact Customer Service at 800-533-0523 if you have questions or would like additional information.

### **RETURN FOR REPAIRS**

Items to be returned for repair must be prepared according to the most recent OSHA requirements. Items must be properly cleaned and verified with a statement on the outside of the package. Proof of purchase must be included with all manufacturer warranty repairs. Please contact our Customer Service Department for additional information.

### **CLAIMS**

All claims for damage occurring in transit must be made upon receipt of goods by customer directly to the carrier. Please save all boxes and packing material. All shipment errors must be reported immediately upon receipt to Bound Tree Medical Customer Service.

## Online Ordering Capabilities

- a. Bound Tree Medical provides a user-friendly online ordering system with advanced features that restrict user access to predefined products that can be approved for purchase using a predefined purchasing path with maximum or minimum users as defined by the contracted customer.
- b. The advanced user platform of BoundTree.com allows customers to self-administer (add/delete) their specific product offering based on the entire Bound Tree Medical online catalog.
- c. Users on BoundTree.com can gather information and prepare self-administered reports based on up to two years of historical data.
  - Trends can be tracked by running reports that can include all shipping locations, or that can be tailored to a specific shipping address.
  - A purchase summary report can be self-generated to view total products purchased over a selected period of time.
  - The purchase summary report can be sorted in ascending order by total sales per item.
  - Purchase summary reports and items per month reports can be self-exported in spreadsheet format for additional evaluation.
  - The purchase summary report provides item usage totals based on monthly, quarterly and yearly expenditures.
  - Reports can be self-exported in spreadsheet format.
- d. Product name, short description and detailed descriptions are maintained for items on BoundTree.com. Product photography is uploaded to the website based on manufacturer availability. Custom photography is also available to supplement manufacturer-supplied items.
- e. A "sold by" column is available on product detail pages to clearly describe available units of measure.
- f. Purchase requisition and order processing paths are predefined and self-administered by an online administrator. User roles include "order submitters" and "order approvers". Multiple-levels of approvers can be established with the option to auto-forward orders awaiting approval with no activity.
- g. Unit and total price for each order are displayed in the shopping cart checkout process.
- h. A web administrator can setup and self-administer user IDs which trigger an e-mail to the user for password setup. Self-administered password reset tools are available to users.
- i. The system does permit an administrator to specify maximum quantities that can be ordered for a given item on a single order. Quotas provide a way for an administrator to self-administer total purchases. To maintain maximum item thresholds, order approvers can monitor and adjust each item on purchase requests throughout the approving and purchasing process.
- j. The purchase requisition process provides date and time stamps for all purchase requisition activities.
- k. Invoice history is posted on BoundTree.com for user access.
