Job Title

Which Boards would you like to apply for?

Commission on Aging: Submitted

Health and Human Services Advisory Board: Submitted

Adult Care Home Community Advisory Committee: Submitted

County Commissioner District *

District 6

Interests & Experiences

Why are you interested in serving on a board or commission?

My sole interest is to learn and to understand better ways that we as a society can take better care of seniors in our community. I have been very fortunate in my professional career to meet many seniors with health issues that may have required them to rehab at a skilled nursing facility, need the assistance of in home health care such as a nurse or require therapy from a PT and or OT, counsel with those with more complex health issues such as needing a long term care acute hospital for more critical needs, and also needing assisted living when they could no longer stay at home. I have had the pleasure of counseling hundreds of patients and families over the years, who were facing difficult challenges in their lives, and counsel them on financial issues and cost of post acute care. In my professional career I have been strategically placed to cover most of our NC hospitals which I am very proud of and which I have learned from with a thankful heart. Currently, I cover Wake Forest Baptist Medical Center, and engage in daily conversation with MD's and medical staff on post acute needs for their patients. which most are over the age of 60. I am passionate about people, and their well being, social work is a calling, although I do not possess the credentials, nonetheless, I have chosen a different path. My current goals are to further my education with a MA in Public Health, and to engage in community forums, and committees to put to use the knowledge and experience I have acquired over the last 28 years. I hope I get this opportunity. I am an advocate, this is who I am and people are my passion, and lastly, working with like minded individuals that are passionate and maybe feel the same, to help all of us understand the mysteries and complexities of the human race. Thank you.
