Re: Guilford County Residential Curbside Collection

Guilford Co Rates:

- Increased in 1999 to include Recycling Program
- Increased in 2008 to \$16.50 from \$16.00 for 1x per week trash collection
- 2x per week and backdoor rates have been in place since 1999

Service:

- Customers can provide own containers or rent containers from vendor

Disposal:

- Rates have not been increased to account for disposal increases.
- Greensboro Transfer Station
- 2008 - \$41.00 per ton
- 2019 - \$44.00 per ton
- Disposal Increase in 2013 of \$3.00 per ton with no price adjustment

Recycling:

See – Recycling is Broken PPT

Service Item:

Drivers currently need to exit truck to service customer owned containers. Increases service time, creates a safety hazard. Use of contractor containers would improve service, safety and efficiency by utilizing automated equipment already in service.

Proposal:

- Increase rate to \$21.50 per month for 1x wk trash, EOW Recycle. Require the use of vendor 96ga container for trash and rec. Container included in price.
- Increase rate to \$30.00 per month for 2x wk trash, EOW Recycle. Require the use of vendor 96ga container for trash and rec. Container included in price.
- Increase rate to \$24.50 per month for 1x wk trash, EOW Recycle backdoor service. Require the use of vendor 96ga container for trash and rec. Container included in price.

This increase would cover increased operational costs over 11 years, recycling processing costs and providing containers to customers.
