Interests & Experiences

Why are you interested in serving on a board or commission?

I am a government professional with a demonstrated commitment to the well-being of individuals and communities in North Carolina through development, public service, and public policy that emphasizes robust food systems; a balanced education; racial equity; and long-term health. I currently serves as Food Resilience Projects Manager for the City of Winston-Salem. I plans and implement Winston-Salem's comprehensive city-wide initiatives to address food insecurity and build an inclusive food economy for residents to find affordable and healthy food. I understand the connectivity that my work has with other issue such as access to transportation, affordable housing, and juvenile crime prevention. I believe that I would bring an energetic, empathetic, and empowering approach to any of the boards or commissions that I have applied for. I am interested in serving in a board or commission at this time because I believe that through my professional and personal career, I have value input and talents to contribute to the aforementioned boards. I have resided in Guilford County for 9 years, and believe I would bring the valuable young professional and Latina perspective that many of these boards may lack. I hope that you will see that through my resume and desire to serve that I am ready to contribute my time during and outside of board meetings to ensure that we achieve our goals.
